AFRL awards contract to Computer Sciences Corp.

by Fran Crumb, Information Directorate

ROME, N.Y. — The Air Force Research Laboratory has awarded a three-year, \$1,914,006 contract to Computer Sciences Corp. of Fairborn, Ohio, for pioneering development of the Signal Processing Evaluation, Analysis and Research (SPEAR) facility at AFRL's Rome Research Site.

"Computer Sciences Corp. will provide the support for the successful development and expansion of the SPEAR facility,"

said James S. Perretta, program manager in the Sensors Directorate at AFRL's Rome Research Site. "The SPEAR facility is an advanced, end-to-end testbed for evaluation of signal processing algorithms, detection and tracking algorithms, and scenario and data generation tools."

AFRL's Information Directorate Contracting Division negotiated the agreement. @
